Project Name	Voice Based Concept Understanding Analyser
Maximum Marks	4 Marks

Empathy Map

💡💡 SAYS

What the user verbally expresses regarding the problem.

- "I want to know whether I actually understand this concept."
- "I need instant feedback after explaining a topic."
- "Written exams don't always reflect my real understanding."
- "I want an easier way to practice before interviews and presentations."
- "I need a system that evaluates my explanation objectively."

💡💡 THINKS

What the user is privately thinking or worried about but might not say.

- "Did I explain the concept correctly?"
- "Will my explanation be good enough during an interview?"
- "How can I improve my communication and conceptual understanding?"
- "I wish I could receive personalized suggestions instead of only marks."
- "I hope the AI evaluation is accurate and unbiased."

?? DOES

What actions the user physically takes to solve or work around the problem.

- Records or uploads voice explanations for concept evaluation.
- Studies concepts from textbooks, online resources, and lectures.
- Practices speaking aloud before exams and interviews.
- Reviews AI-generated reports and similarity scores.
- Improves weak concepts based on personalized feedback and recommendations.

♥ FEELS

The user's emotional state when dealing with the problem.

- Curious to know their actual conceptual understanding.
- Nervous before interviews and oral examinations.
- Frustrated when feedback is delayed or unavailable.
- Motivated after receiving instant AI-generated feedback.
- Confident as communication skills and concept clarity improve over time.
